

# Women are overrepresented in low-wage work across almost all racial/ethnic groups

The bars show the share of women in the labor force and the share of women paid low wages for each racial/ethnic group. For example, over half (56.4%) of Asian American and Pacific Islander (AAPI) low-wage workers are women, but women make up 50% of all AAPI workers.

In 2022, the value of the low-wage threshold is \$19.69. The sample includes workers who live and work in California, were employed last week but not self-employed, ages 16+, and with non-zero earnings last week. All racial/ethnic categories are mutually exclusive.
